

Elle Narbrook Photography

BUMP, BABY, & FAMILY

Info & Pricing

Hi, I'm Elle!

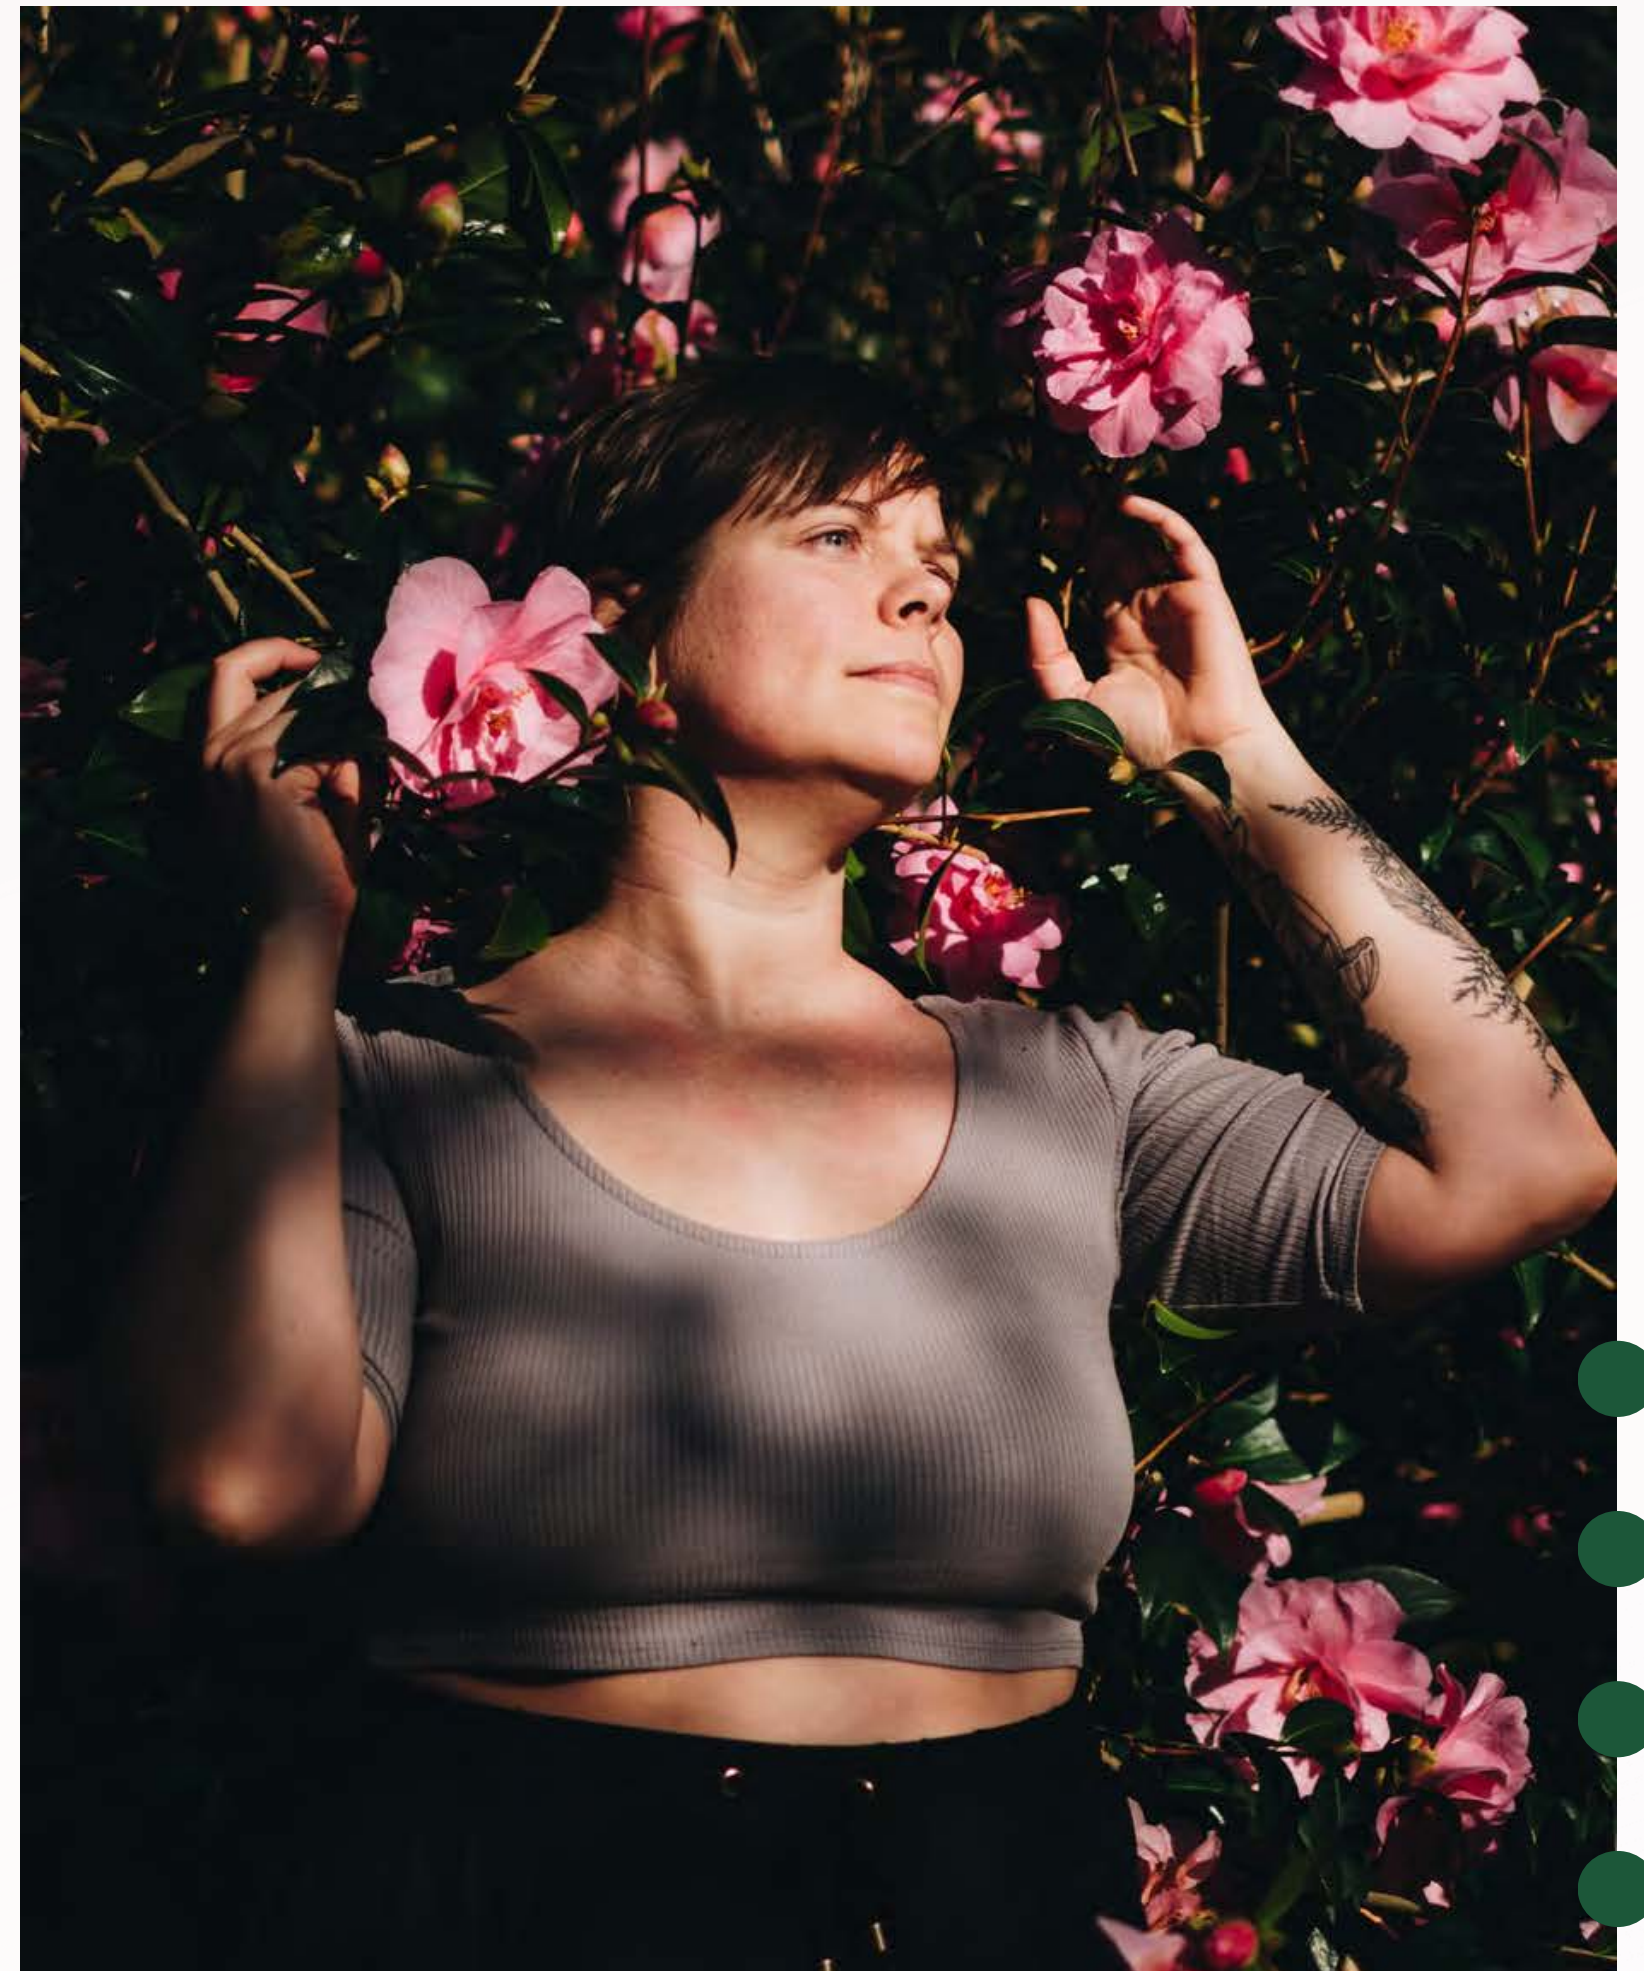

pronounced L-E

I'm a Sheffield-based Family, Pregnancy, Birth, and Baby Photographer.

I specialise in relaxed and natural photography, capturing images as you are. Lifestyle images allow you to be comfortable at a location of your choice, whether it's out in the Peaks or at your home.

Photo sessions can be intimate portraits of just you, your immediate family, or extended family involved.

Let me help you preserve your memories.

"Elle, to start with, beams with such positive energy and creates an atmosphere in which it's so easy to feel relaxed and yourself. This just shows in the pictures! On top, she's got a perfect eye and is very much into capturing natural emotions in most natural environment. Not only are the pictures amazing, exactly as I'd love them to be, but also the session itself was very warm, fun and memorable." - Ewa

WHAT TO EXPECT

Before the Session

Once you've booked on for a session, we'll have a telephone pre-consultation to chat about location, timings, what to wear and more. Depending on the age of the kids we might have the session at your home or out and about. We'll chat about your vision for the session and I'll answer any questions you have.

During the Session

All of my sessions are CHILD-LED. We follow what the kids are interested in doing, ensuring that everyone is relaxed and comfortable. We'll capture family group shots without the awkward posing and cheesing. **Sessions usually last around an hour depending on the age of kids**, but allow for more time so there's no sense of rush.

After the Session

About 2-3 weeks after your session, you'll receive your full online viewing gallery. Choose from one of three collections to purchase and start downloading your favourite digital images and spend your print credit in the shop. You'll have three months to access your gallery before it expires.

"We had the absolute best time during our photo session! When I saw your photography portfolio, I knew that I had to contact you because your style of photography and editing matches pretty closely to what we usually gravitate towards...On the day of the session, everything felt very natural which probably helped you capture us in our element. Thank you so much for making it such a wonderful experience!" - Aaina

"The photography was lovely - I liked her laid back approach and that all her photos look less like a photography session and more like magic screens into a day in the life. We're big on candid photos and that's the vibe Elle's photography gives off. Everything also feels so light - the actual lighting, the experience, Elle's energy - it's great!"
- Heather

“Everything about the session was comfortable and not forced. We were able to just be us. My partner enjoyed the experience of Elle capturing us in an non intrusive way. She was able to capture such beautiful moments for us that we will treasure forever. We absolutely adore our images and the whole experience. Highly recommend booking in with Elle.” - Katy
